

Georgia Natural Gas- TrueBlue Schools Program

Join Georgia Natural Gas® in supporting Queen of Angels Catholic School!

The *TrueBlue Schools Program* is a simple fundraising solution that lets parents, teachers, alumni, family members, and members of our community help raise money for **Queen of Angels Catholic School**-- just by choosing Georgia Natural Gas!

You can read more about the program at <http://www.trueblueschools.com/>. Here you can sign up to be a GNG customer and then assign Queen of Angels Catholic School as your school to support. Once your GNG account information is verified, new GNG customers will get a \$40 one time donation to our school upon sign up, and \$5 per month thereafter for as long as they remain a GNG customer in good standing. If you are already an existing GNG customer, \$5 per month will be donated to your school of choice for as long as you remain a GNG customer in good standing.

By enrolling, Georgia Gas **will donate up to \$100 a year** for every person in our school community who chooses GNG and selects Queen of Angels Catholic School. In addition, all TrueBlue Schools participants are eligible for a guaranteed **5¢ discount per therm** by choosing the Market Advantage Plan. Once you sign up, donations are automatic and ongoing, so there's nothing else for you to do.

We currently have 7 QA families registered, and a total donation earned to date is \$295. We know how important QA is to you. Just think of the impact, if we could get 100 families signed up, with \$100 yearly donation – that would be \$10,000 for Queen of Angels Catholic School! Please sign up today!
